

Joshua Rogol

Vice President of Energy Storage

STRATA SOLAR

Joshua Rogol serves as Vice President of Energy Storage at Strata Solar, responsible for origination and development for stand-alone and solar plus storage projects across the US. Prior to Strata Solar, Joshua was VP of Sales at ViZn Energy, where he developed the company's first behind the meter, micro-grid, and utility scale energy storage projects. Previous experience includes VP of Business Development for Urban Green Energy (UGE), managing a global development team focused on commercial and industrial solar and micro-grid deployment in China, Panama, Philippines, and the USA. He was a founding member of PHOTON Consulting, where he acted as a strategic advisor to leading manufacturers, developers, and financiers across the PV and energy storage industry.
