

KJ Plank, *Senior Director of Product*, POWIN ENERGY

KJ leads the Product team at Powin, ensuring that the company brings to market products that customers love. Prior to Powin, KJ led the Product team at Doosan GridTech, earning a coveted Grid Edge Innovation award for work on control and optimization of distributed storage and renewables. KJ also spent time helping to form the grid-scale storage strategy at Southern California Edison and, before that, served in the Navy while overseeing power plant operations onboard nuclear submarines.
