

“Michael Enger, currently the Energy Market Manager over Market Operations and Risk Management, joined Austin Energy in 2001 after graduating from Texas A&M University with a B.S. in Economics and a brief stint with a mutual fund company. Michael has spent nearly all of his 19 years at Austin Energy within the Energy Market Operations group performing or overseeing a variety of wholesale market and risk management tasks and projects but takes the greatest pride when identifying new opportunities, programs, or revenue streams that create additional benefit to the Austin Energy customer.”
